

Don't ignore what's underneath
Listen to your body.

Cancer which originate in a woman's reproductive system; cervix, uterus, ovary, vagina, vulva, may be hard to recognise. It is important that you listen to your body and know what is normal for you.

If you have any symptoms such as **abnormal bleeding, back or abdominal pain or pressure, itching, burning or change in color of vulvar skin**, then report it to your doctor.

Get the facts!
